

## cronetwork® access in a nutshell →

The importance of security and transparency is rising for modern companies. Sensitive company areas must be protected with comprehensive security concepts.

**cronetwork®** access assures you of reliable access control and thus meets your growing security requirements.

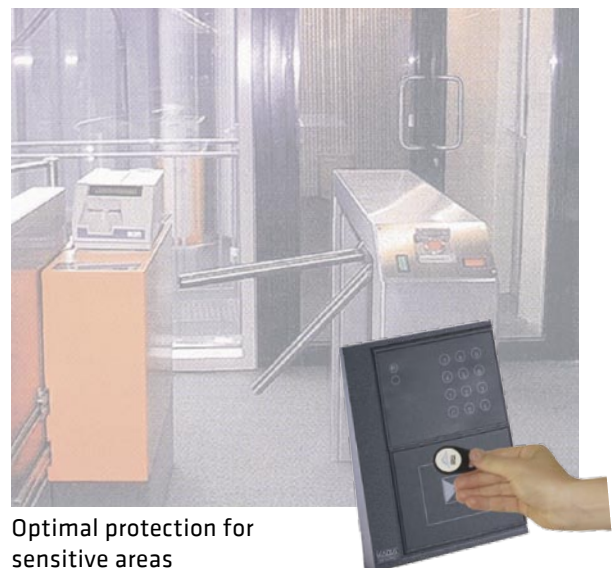

# access

## Your benefits →

- **You protect your company.**  
**cronetwork®** controls access: who is entitled to access where and when.
- **You provide protection for sensitive areas.**  
**cronetwork®** logs who enters protected areas and when.
- **You protect valuable devices.**  
Expensive tools, testing devices, etc. can be protected with **cronetwork®** access and you can monitor who enters their defined locations.
- **You vest in central management.**  
From the central management interface of **cronetwork®**, access control components are controlled with hardware by Kaba Benzing, from doors to cabinets, from turnstiles to elevators.
- **You govern access to complete floors.**  
In the interplay with components by Kaba Benzing, you can control elevators and so allow your employees entry to all authorized floors.
- **You remain flexible.**  
**cronetwork®** affords you flexible options for extending your access system.

- **You parameterize instead of programming.**  
Instead of complicated reprogramming of hardware, you simply change access privileges and access times intuitively in graphical software.
- **You vest in simple administration.**  
Integration in the **cronetwork®** product family enables common utilization of core data and thus supports simple administration.

Optimal protection for sensitive areas

## Our company

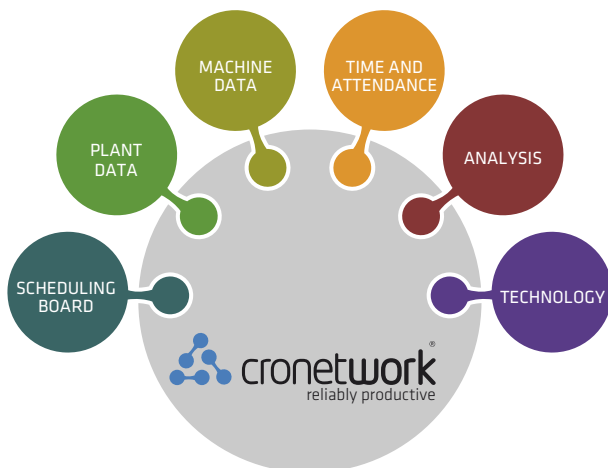

reliable  
competent  
international  
partner-oriented  
high-performance

With its **cronetwork**® product family, Industrie Informatik has established itself as a leading vendor for **MES (Manufacturing Execution Systems)** on the central European market.

The human and technical competency of our employees, continuity and our partner-oriented behavior toward our customers, employees and suppliers create an environment in which the realization of complex projects succeeds optimally.

# The solution is more than the sum of the components.

## The integration

The standard software **cronetwork**® is a scalable information and management system that particularly emphasizes the sensible interplay of individual components and full release compatibility.

Functionally and technically high-quality solutions that are reliable and intuitive to operate open new opportunities in production organization.

As a connector between leading ERP systems and your production, **cronetwork**® is optimally embedded in your IT infrastructure.

## Our services

Prerequisites for the extremely high acceptance of our solutions are our tested procedures in:

- analysis
- consultation and
- implementation
