

## cronetwork® project time in a nutshell →

Beyond classical production, internal service providers represent an important factor in the value-added chain. **cronetwork®** project time lets you define activities and projects directly at your PC. The integration of **cronetwork®** plant data and **cronetwork®** time and attendance enables a holistic view of costs from the first sales contact to production to assembly.

## project time

### Your benefits →

- **You support the recording of services.**  
**cronetwork®** enables the recording of times, project costs and travel expenses and their unambiguous assignment to projects, customers and employees.
- **You have an overview.**  
**cronetwork®** supports continuous monitoring of production processes from sales to production to assembly. Comfortable standard evaluations provide the necessary overview.
- **You see target/actual comparisons for your projects at the press of a button.**  
Expenses of internal service providers such as sales, design and assembly work are recorded, assigned to projects, and compared with target values.
- **You can trace costs.**  
**cronetwork®** affords direct project cost accounting for third parties such as customers.
- **You vest in high acceptance on the part of your employees.**  
The comfortable user interface is user friendly. **cronetwork®** project time brings transparency to your project times and travel expenses. Clear compilations always keep your employees informed.
- **You have clean, correct data for final costing.**  
**cronetwork®** provides data to third-party systems that is correct in form and content.
- **You identify hidden costs.**  
In combination with **cronetwork®** time and attendance you immediately detect projects that were realized with overtime (= additional cost).

Transparent project times and travel expenses from design to assembly

## Our company

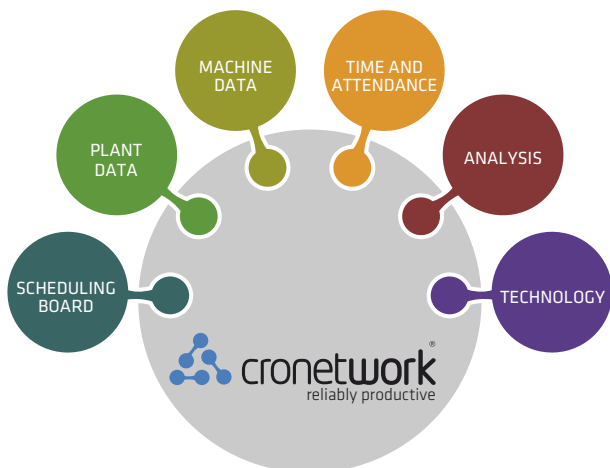

reliable  
competent  
international  
partner-oriented  
high-performance

With its **cronetwork**® product family, Industrie Informatik has established itself as a leading vendor for **MES (Manufacturing Execution Systems)** on the central European market.

The human and technical competency of our employees, continuity and our partner-oriented behavior toward our customers, employees and suppliers create an environment in which the realization of complex projects succeeds optimally.

# The solution is more than the sum of the components.

## The integration

The standard software **cronetwork**® is a scalable information and management system that particularly emphasizes the sensible interplay of individual components and full release compatibility.

Functionally and technically high-quality solutions that are reliable and intuitive to operate open new opportunities in production organization.

As a connector between leading ERP systems and your production, **cronetwork**® is optimally embedded in your IT infrastructure.

## Our services

Prerequisites for the extremely high acceptance of our solutions are our tested procedures in:

- analysis
- consultation and
- implementation

Our know-how in the field of production logistics and the holistic thinking of our consultants complement our solution competence.

## Our key to success

- 100 % worldwide IT standards
- 100 % hardware independence
- 100 % integration
- 100 % Oracle
- 100 % technology leadership
- 100 % customer satisfaction
- 100 % multilingual
