

## cronetwork® scheduling board in a nutshell

On-time delivery, cost reduction and resource optimization are criteria that modern production companies must face in order to participate in today's delivery chains.

**cronetwork®** scheduling board serves as the core tool of a transparent and optimized production control system that allows you holistic control of your processes and resources.

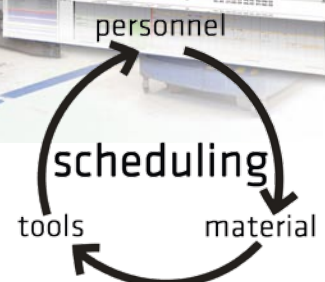

# scheduling board

## Your benefits

- **You increase transparency in your production.** You know at any time and for certain what is happening in production. Deviations are immediately depicted graphically and can be corrected early. Production processes can be tracked transparently.
- **You reduce throughput times.** **cronetwork®** enables shorter delivery times and maximum adherence to deadlines via optimal planning. This significantly increases your competitiveness.
- **You heighten your productivity.** Through improved machine utilization (e.g., retooling optimization) and less idle time, your costs decline.
- **You minimize your stock.** Transparent scheduling reduces your stock of semifinished products and thus the bound capital and costs.
- **You vest in efficient scheduling.** Due to the speed of scheduling, you can simulate alternatives with exact consideration of momentary influences and so select the optimum.
- **You generate additional integrative benefits.** Your ERP contains correct deadlines for expensive purchased parts. **cronetwork®** scheduling board works with your employee pool according to **cronetwork®** personnel scheduling.
- **You plan bottleneck resources in parallel.** The availability of machines, tools and personnel are tested simultaneously.
- **You vest in high acceptance by your employees.** **cronetwork®** provides simple, intuitive operation and clear representation of orders and production sequences along with highest functionality. Your company's planning philosophy can be optimally integrated. Its free configurability adapts **cronetwork®** to individual requirements.

Capacity utilization in production

## Our company

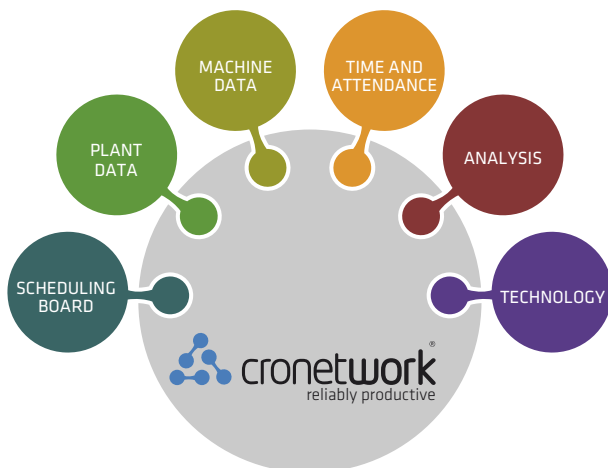

reliable  
competent  
international  
partner-oriented  
high-performance

With its **cronetwork**® product family, Industrie Informatik has established itself as a leading vendor for **MES (Manufacturing Execution Systems)** on the central European market.

The human and technical competency of our employees, continuity and our partner-oriented behavior toward our customers, employees and suppliers create an environment in which the realization of complex projects succeeds optimally.

# The solution is more than the sum of the components.

## The integration

The standard software **cronetwork**® is a scalable information and management system that particularly emphasizes the sensible interplay of individual components and full release compatibility.

Functionally and technically high-quality solutions that are reliable and intuitive to operate open new opportunities in production organization.

As a connector between leading ERP systems and your production, **cronetwork**® is optimally embedded in your IT infrastructure.

## Our services

Prerequisites for the extremely high acceptance of our solutions are our tested procedures in:

- analysis
- consultation and
- implementation

Our know-how in the field of production logistics and the holistic thinking of our consultants complement our solution competence.

## Our key to success

- 100 % worldwide IT standards
- 100 % hardware independence
- 100 % integration
- 100 % Oracle
- 100 % technology leadership
- 100 % customer satisfaction
- 100 % multilingual
